*W. JONES' TREATISE. SECOND EDITION. 220 pp.  
Cloth, 2/6; per post, 2/10.*

**PRESS OPINIONS ABRIDGED.**

**THE ARCHITECT** :—"Is well worth the perusal of all who are interested in heating matters according to the best methods."

**BUILDING NEWS** :—"Will be of service to Architects, Builders and others who require practical advice on the preparation of their specifications, and will repay a careful study by those interested in Hot Water Heating."

**LAND AGENTS' RECORD** :—"A very remarkable book, a thoroughly exhaustive and emphatically practical guide. Every chapter is a synoptical treatise, and the continuity of chapters a perfectly delightful series of really scientific lectures."

**WHITEHALL REVIEW** :—"The Scientist will linger long over this extremely well-written treatise, which must not by any means be confounded with a trade catalogue."

# BOYLE'S PATENT *Latest Improved Self-acting Air Pump Ventilator.*

FIFTY PER CENT.

THE MOST

POWERFUL EXHAUST  
AND  
CHEAPEST  
VENTILATOR  
IN THE MARKET.

Impervious to wet and  
down draught.

Strongly made  
of the Best Steel,  
Galvanized, and  
Finest Work-  
manship.

No. 2a.

No. 1.

REDUCTION IN PRICE.

**CAUTION**  
TO ARCHITECTS.  
Fraudulent Substitution.

Having received complaints alleging the failure in certain cases of the Air Pump Ventilator, upon examination being made it was found in every instance that the contractor had substituted, to secure a greater profit to himself, a cheap and inferior Ventilator resembling, in outward appearance, the Air Pump Ventilator which had been specified to be used.

It is respectfully requested that, in specifying the Ventilator, the words "BOYLE'S LATEST IMPROVED PATENT AIR PUMP VENTILATOR" be used.

[illegible]

Towards the end of the present year a

## SUPPLEMENTAL VOLUME OF "ACADEMY ARCHITECTURE,"

will be published at the same price, and of exactly the same size as the present Volume.

It will contain :

- I. Drawings exhibited at the Royal Academy, 1895, which were not obtainable until after the close of the Exhibition.
- II. A selection of other good modern designs by English Architects.
- III. English and French Sculpture from the London and Paris Exhibitions.
- IV. The Review containing proposed and completed designs of subjects in all countries abroad.

As more time is available for the preparation of this Supplement than for the Annual Volume, it will be possible to pay greater attention and devote more space especially to ground-plans.

As the Edition will be somewhat smaller than that of the ordinary Annual Volume, and as the price will be raised shortly after publication it is essential that all orders should be given at once.

Orders are received by all Booksellers and Newsagents, and at

*June 1, 1895.*

"ACADEMY ARCHITECTURE,"

58 THEOBALDS ROAD,

LONDON, W.C.

# Perfection in Improved Patented Specialities of the Building Trades.

53 Highest Awards at  
Competitive Exhibitions.

Wrought Iron and other Metal Casements and Frames, "Impervious" Patent Warranted Weatherproof.

"Empress Victor"  
Patent Pneumatic  
Door Spring and  
Check.—Strongest  
at the closed position,  
best and most reli-  
able, durable and very

neat; can be fixed on  
either side of door or  
on right or left hand  
side; small space only  
required. Various sizes  
made.

Panic or Exit  
Appliances for In-  
stant Egress. The  
"Exodus" and other  
Varieties, with or  
without Outside  
Handle and Key.

"Impregnable" Bolts  
and Fastenings (Arthur W.  
Adams' Patent), with Double  
or Treble Shoots, Automatic  
Locking Action, combines  
every essential Feature re-  
quisite in a perfect Fastener.  
Compact Neat Case for  
Fixing on Edgeways for  
Narrow Stiles or Flat Ways,  
or mortised in like a Sash

No. 199.  
Weather-tight  
Lock, with or without Out-  
tongue pattern.

No. 8.  
Half-  
round pattern.

Special Casement Bolts, triple action for casements  
opening in or out, guaranteed reliable and efficient, new  
actions.

Write for Lists and Terms for Patent Door Springs,  
Fanlight and Lantern Light and Skylight Openers,  
Ventilators (Inlets and Outlets) of every descrip-

The 'Crown' Pattern Floor Hinge  
for Swing Doors. Made with the Silent  
Check or without; also to suit single  
action doors closing one way. These  
celebrated springs belong to the "Vic-  
tor" Class patents, in which are em-  
bodied all recent improvements not to  
be found in any other kind.

## ROBERT ADAMS,

Telegrams—"Robert Adams, London."  
Building Trades' Emporium,  
67 Newington Causeway,  
London, S.E.

Patent Ventilating Gear for Skylights, Lantern Lights, and other continuous Ranges of Sashes.—  
Length no object; efficient and reliable in all cases whatever the weight. Modifications to suit all work.

ROBERT ADAMS' PATENT "UNIVERSAL" FANLIGHT OPENER, with Rod and Handle.

The "Universal" Pattern is an  
extremely simple, neat, effective, and  
cheap Fanlight Opener, having a Screw and  
Link action, connected by a universal joint to the Vertical Rod, which  
has a tube at the lower end concealing a handle.

The Fanlight is operated by turning the handle (C), first slipping up the cover  
tube (B). The action is communicated by the rod (A) to the nut (F), causing it to  
traverse the screw (E), thereby acting on the sash by the link (D). The "Universal  
joint" (D) admits of the rod (A) being angled to any convenient extent for working it (see dotted lines), but  
when released from the handle the tube drops over and conceals the handle, and the rod hangs vertically.

No. 330.

Another favourite pattern is my Link  
Motion, No. 114, with Screw at bottom of  
Rod, passing through the patent enclosed  
gear regulator. This regulator can also be  
supplied to revolve the Rod of No. 330.

tion, Gate Hinges and Fittings, Iron  
Doors and Gates, Artistic and other  
Metal Work, Patent "Impervious" Metal  
Casements and Frames, &c., &c.

# The "POLYGON" FLOOR.

*Why it is the Best!*

1. It is Fire-resisting.
2. It successfully resists, when Heated, action of Water.
3. It affords successful resistance to expansion.
4. It is sound proof.
5. It can be rapidly executed.
6. It possesses all the advantage of an Arch without the disadvantage of its thrust.
7. It offers the maximum resistance to falling bodies.
8. It is very light. No Concrete is necessary.
9. It affords facilities for Ventilation and Warming.

Designs & Estimates  
free on application.

Telegrams—  
"FENESTRULÉ, LONDON."

# THE FENESTRA VENTILATOR

Affords a ready means of admitting fresh air into an apartment without draught, by merely touching a knob.

The  
FENESTRA  
VENTILATOR  
can be readily  
removed from  
one house  
upon change  
of residence,  
and re-fixed  
in another.

The  
FENESTRA  
VENTILATOR  
can be readily  
removed from  
one house  
upon change  
of residence,  
and re-fixed  
in another.

To open the Ventilator all that has to be done is to draw a knob inwards a quarter of an inch; and to close it, *vice versa*.

The convenience of such an arrangement will be apparent to all who have experienced the inconvenience of breathing the stuffy atmosphere of a sitting room (or bedroom) after the blinds are drawn for the night, but who nevertheless hesitate to expose themselves to the injurious possibilities, consequent upon the act of opening a window, or of leaving it open for any length of time.

## Prices.

In Brass, 7s. 6d. per Set, for one side of a window.

In Malleable Galvanized Iron, 4s. per Set, for one side of a window.

*Full directions for fixing are despatched with each order.*

Full particulars and detailed drawings will be furnished on application to

ESPECIALLY APPARENT TO ARCHITECTS IS THE  
BEAUTY AND EXCELLENCE OF

## AMERICAN RADIATORS

"ROCOCO."

STEP by step, just as modern Architecture has advanced, they have become more artistic; they constantly improve, though they've always been the best.

We are constantly in touch with the artistic spirit of the times in design, and abreast of the most modern improvements in construction.

*Illustrated Catalogue  
sent free  
Application.*

OUR several works, covering over twenty acres, are devoted exclusively to the manufacture of Radiators; they are filled with the most expensive patented machinery. We can guarantee a product absolutely perfect.

Made in an endless variety of styles, shapes, sizes, and heights, we can furnish Radiators to suit every requirement of the Architect.

*All Communications to be addressed to the Company.*

**THE OTIS STANDARD HYDRAULIC ELEVATOR** is in use in the leading Hotels and Office Buildings of the World. List of users will be sent on application.

**OTIS ELEVATORS** are made to work from all sources of power.

**THE OTIS ELECTRIC ELEVATOR** represents the best and most modern development of this branch of Engineering.

**More than 2,000 Electric Elevators now in use.**

It is as **SAFE** and **SIMPLE** as the Otis Hydraulic Elevator, of which more than 16,000 are in daily use, and in every Country.

We recommend its adoption whenever an electrical current can be employed with more advantage than water power.

Unlike all other Elevators this electrical engine consumes power only in proportion to the load lifted.

The engine is so constructed that it starts and stops with the winding machinery.

All work made on our own Premises We invite Architects' inspection during progress.  
Architects' Designs carefully worked out. Estimates and Designs for all classes of work in any Metal

DURABILITY.

## HOT WATER HEATING APPARATUS FOR WARMING & VENTILATING

Churches, Chapels, Schools, Mansions, Residences, Conservatories, Public Buildings of all kinds; also Turkish and other Baths; Laundries, Drying Rooms, Manufactories and Buildings of every Description.

**THIS APPARATUS** consists of a continuous tube of only one inch and-a-quarter in diameter, a portion of which forms a Coil, and is placed in a furnace which heats the water in the Coil, causing the Circulation. A Special Expansion Tube with self-acting Valve, &c., which does not seal or bottle up the Apparatus, but provides amply for both the Expansion of Water and Escape of Air, without Loss of Water, a result hitherto thought impossible: thus my Apparatus cannot justly be called High Pressure or Dangerous.

**CAUTION.**—Attempted Infringement necessitates notifying that "The combination of an Expansion Tube with a Safety Valve" is covered by my Patent, and can only be supplied by me.

**SAFETY.**—It is perfectly Safe, there being neither Boilers, Steam, Metal Plates, Cisterns to boil over or cause undue strain, nor Hermetical Sealing of the Apparatus. It can also (when desired) be charged with Non-Freezing Liquid, and can be fired any weather, regardless of Frost.

**NO TWO QUALITIES OF PIPING USED. ONLY COMPETENT & STEADY MEN EMPLOYED. NO PIECEWORK ALLOWED.**  
**EVERY APPARATUS IS GRATUITOUSLY GUARANTEED.**

**ADVANTAGES.**—NO HERMETICAL SEALING—NO CISTERN to boil over or get out of order—NO BOILER—NO STEAM—NO CAST IRON PIPES—NO BURNT AIR OR SULPHUR FUMES—"THE ONLY" SYSTEM PROVIDING FOR SILENT AND SELF-ACTING EXPANSION (without loss) OF WATER AND RELIEF OF AIR.

Plans and Estimates Furnished Free of Charge on Application.

**Patent No. 21012.**

**FIRST-CLASS BUT INEXPENSIVE.**

---

**Price, in Fine White Ware, 40s.; including Fittings as above.**

**Size 25 by 17. Basin 18 by 13. Other Sizes Made.**

*FULL LISTS ON APPLICATION.*

---

The improvement here consists in an arrangement by which the chain is passed through a suitable hole in the flat part of the Lavatory, and is weighted at the end, the effect being that so soon as the rubber plug is released from its socket the chain passes through the hole out of sight and the rubber plug is held on the top of the slab, thus preventing the annoyance of picking it out of the basin, where it frequently falls in the ordinary way, stopping the free discharge of the water.

*PHOTOGRAPHS AND FULL DETAILS ON APPLICATION.*

# THE "LUX"

## Patent Venetian Window Blind,

MANUFACTURED FROM PAPYRACEOUS PULP,

IS THE ONLY WINDOW BLIND

SECURING COOL, REFRESHING, AND RESTFUL SHADE.

ABSOLUTE PRIVACY FOR THE APARTMENT.

A PERFECT NON-CONDUCTOR OF HEAT.

NOT HALF THE WEIGHT OF OTHER VENETIANS.

Lends itself to Artistic Decoration at a Small Cost, costs One-Third less than the Old-Fashioned Wood Blinds, and is the Cheapest Venetian Blind in the World.

---

THE "LUX" PATENT VENETIAN BLIND CO., Limited,  
PERSHORE STREET & UPPER DEAN STREET,  
Birmingham, England.

---

## MEYER'S STONE-CEMENT

SERVES TO

Imitate and Repair Marble, Granite, Porphyry,

Sandstone, Limestone, Lithographic Stones, &c.,

Also for Mending Broken Edges of Flagstones and Steps,

Repairing the Façades of Churches, Monuments, Statues, &c.

Its principal advantages are—(1) Every kind of Stone (Marble, Granite, Freestone, Sandstone, &c.) can be repaired by it. (2) No head is required in making the mend. (3) It can be coloured in any way required, and the stone may be imitated perfectly. (4) The joins are unaffected by any kind of weather and remain permanently as hard and as durable as the rest of the stone. (5) The cost becomes trifling in comparison with advantages, when it is remembered that one must always use from two to four parts of stone-dust or hard sand to one part of the Cement. (6) The mend is hard and solid in two days, and may be worked, carved, sawn, or polished afterwards in the same way as an ordinary block of stone.

*Hundreds of Testimonials from all Parts of the World.*

E. FRED. MEYER, STONE MERCHANT, FREIBURG (BADEN).

# LONDON CHURCHES

OF THE  
XVIIth & XVIIIth Centuries.

A SELECTION of the most remarkable Ecclesiastical Buildings, including ST. PAUL'S CATHEDRAL, erected within and around the Ancient City Walls between the years 1630 and 1730, from the designs of

INIGO JONES,  
SIR CHRISTOPHER WREN,  
NICHOLSON HAWKSMOOR AND JAMES GIBBS.

Illustrated in a Series of SIXTY-FOUR ARTISTIC PLATES, about 14 inches by 11 inches, reproduced in the most perfect manner from exceptionally fine Photographs, taken expressly for the Work by MR. CHARLES LATHAM, accompanied by Ground Plans drawn to scale, and a variety of interesting details in Stone, Wood and Metal, together with Historical and Descriptive Text. The whole produced under the able editorship of

GEORGE H. BIRCH, Esq., F.S.A.

ALTHOUGH a number of books are to be found dating back to the close of the last and the commencement of the present century, illustrating in a more or less imperfect manner most of the Churches which then adorned our City, it is remarkable that no modern work of importance has yet appeared which attempts to illustrate in an adequate and permanent manner the best of those admirable buildings which yet remain to us; and it is the object of the present work to supply in an attractive and reliable manner such a series of illustrations of these as shall preserve an authentic and artistic record of their beauty and variety of design.

## THE CHURCHES ILLUSTRATED WILL INCLUDE—

St. Paul's Cathedral (12 Plates).  
St. Bride's, Fleet Street.  
St. Stephen's, Walbrook.  
St. Clement Danes, Strand.  
St. Mary Le Bow, Cheapside.  
St. Martin's, Ludgate Hill.  
St. Martin's in the Fields.  
St. Michael's, Cornhill.  
Christ Church, Newgate Street.  
Christ Church, Spitalfields.  
St. George's, Bloomsbury.  
All Hallows, Barking.

St. Mary Abchurch.  
St. Mildred's, Bread Street.  
St. Lawrence Jewry.  
St. Magnus, London Bridge.  
St. James, Piccadilly.  
St. Andrew's, Holborn.  
St. Catherine Cree.  
St. Giles in the Fields.  
St. Leonard's, Shoreditch.  
All Hallows the Great and Less.  
St. Ann and St. Agnes Church, City.  
All Hallows, Lombard Street.

St. Dunstan's in the East.  
St. James, Garlick Hythe.  
St. Margaret Pattens.  
St. Mary Woolnoth.  
St. Peter upon Cornhill.  
St. Michael's, Paternoster Royal.  
St. Mary, Strand.  
St. Swithin's, London Stone.  
St. Mary at Hill.  
St. Vedast.  
St. Mary Aldermary.  
St. Nicholas, Cole Abbey.

OF WHICH PLANS AND DETAILS WILL BE GIVEN.

B. T. BATSFORD, 94 HIGH HOLBORN, LONDON.

# SHONE'S Pneumatic Ejectors,

FOR RAISING SEWAGE, SLUDGE, PAIL CONTENTS,  
WATER, &c.

The most Perfect and Economical Method of Raising Sewage,  
Sludge, Pail Contents, &c.

## EXPLANATORY.

(1) Automatic House Sewage Ejector. (2) House Drain (stoneware pipe). (3) Main Sewer (stoneware pipe). (4) Manhole. (5) Hydro-Pneumatic Ejector. (6) Automatic Flush Tank. (7) Compressed Air Main. (8) Sewage Delivery Main (cast iron). (9) Manhole Covers Sealed. (10) Fresh Air Inlet Pipe (iron). (11) Automatic Gear. (12) Exhaust Air Pipe (iron). (13) Pneumatic Nozzle and Ventilating Shaft. (14) Sewer Air Outlet Pipe.

Manufacturers:

**HUGHES & LANCASTER,**  
47 VICTORIA STREET, LONDON, S.W.

# TERRA-COTTA

IN RED, PINK AND BUFF.

## WILDERNESS WORKS, WREXHAM

THE Wilderness Terra-Cotta is an honest and beautiful material for building, in substance indestructible, with a hard surface, impervious to moisture, and unaffected by acids or atmospheric impurities. All the Wilderness Terra-Cottas are burnt their natural colours. No colouring matter is used in manufacture, nor are the goods "dipped" or "washed." The surface is that left by the tool, and the colour that made by the direct action of the fire on the oxides of iron contained in the clay. The Works are fitted up with the newest and best machinery for expeditious and large production, and are connected with the Great Western Railway Main Line.

Architects are invited to visit the Works, which are situated one mile and a half from Wrexham Station.

*Samples will be sent on application.*

Among other buildings now in course of erection, constructed wholly or in part of the Wilderness Terra-Cotta are the following:—

## WINTER WARMTH AND COMFORT.

Heating and Ventilating Apparatus.

GRUNDY'S SPECIALTY—PURE WARM AIR.

UPWARDS OF ONE THOUSAND TESTIMONIALS RECEIVED.

## PURE WARM AIR AS SUPPLIED TO

Truro Cathedral; Londonderry Cathedral; Sherborne Abbey; Kilmore Cathedral; Stanley Cathedral, Falkland Islands; Cardiff Catholic Cathedral; The Queen's School Chapel, Eton; Cork Asylum; Leicester Asylum; and to upwards of three thousand Places of Worship; and a great number of Mansions, Houses, Hotels, Hospitals, Schools, Warehouses, Factories, Workhouses; Cork Court House; Colchester Court House; St. Mark's Hospital, London, &c., &c.

"84 BROOK STREET, GROSVENOR SQUARE, December 8th, 1893.

"SIR WILLIAM BROADBENT encloses cheque for the 'GRUNDY' HEATING APPARATUS supplied to his house, and is glad to say that it has proved very satisfactory for warming and ventilating as required. The principle of the apparatus is most excellent.

"To Mr. GRUNDY."

PROFESSOR TYNDALL writes—

"HIND HEAD HOUSE, HASLEMERE, October 24th, 1893.

"DEAR SIR,—My house being so well provided with grates and flues for the generation and distribution of pure warm air, I have been thus enabled to spend my winters in England, instead of on a foreign shore.

Yours very truly, JOHN TYNDALL."

"FEVER HOSPITAL AND HOUSE OF RECOVERY, CORK STREET, DUBLIN, October 26th, 1894.

"DEAR SIR,—I have much pleasure in informing you that we have found your Heating Apparatus a great success in our new Epidemic Hospital, which consists of a two-storey building, each storey containing two large wards, a smaller isolation ward, and two nurses' rooms. It is easily managed, does not cost much for fuel, and the air entering is most pleasant, warm, and free from smell. It is with the full concurrence of the Managing Committee I give you this testimonial.

Yours faithfully,

"JOHN MARSHALL DAY, Registrar and Resident Medical Officer."
